

TraceFlow Timesheet Report

Generated on 5/31/2025, 11:13:03 PM

Summary

total Timesheets: 3
total Hours: 0.25
validated Timesheets: 1
pending Timesheets: 2
rejected Timesheets: 0

AI-Generated Summary

Analysis Summary:

Key Metrics:

1. Total Timesheets: 3 (Indicates the number of submitted timesheets for the specified period)
2. Total Hours: 0.25 (Total hours spent on visits as per the submitted timesheets)
3. Validated Timesheets: 1 (Number of timesheets that have been reviewed and approved by supervisors)
4. Pending Timesheets: 2 (Number of timesheets still waiting for validation or review)
5. Rejected Timesheets: 0 (Number of timesheets that were rejected due to incomplete data or unapproved reasons)

Trends and Patterns:

- The number of visits per week seems inconsistent, with a high of 8 visits in one week (Week 23/2025) and only 1 visit in another (Week 22/2025).
- Although the total hours spent are low, it's noteworthy that some weeks have multiple visits, suggesting a potential need for resource optimization or time management.

Implications and Recommendations:

- It is recommended to investigate the discrepancy in the number of visits between weeks, as this could indicate issues with scheduling or prioritization. Additionally, ensuring that all timesheets are completed accurately and on time will aid in resource planning.
- Consider implementing a system for tracking and analyzing the time spent during visits to better understand and manage workload distribution.

Anomalies and Outliers:

- One outlier exists in the 'checklistCompleted' field where a timesheet with multiple visits (Week 23/2025) was not fully completed. This could indicate that the checklists are either too lengthy or not always necessary, leading to potential oversight during visits.

Details

supervisor	week	status	total Hours	visit Reasons	number Of Visits	checklist Completed
sofien lahgouanem	22/2025	pending	N/A	N/A	N/A	Yes
sofien lahgouanem	23/2025	validated	N/A	N/A	N/A	No
ausser user	22/2025	pending	N/A	N/A	N/A	No
